CONSIDERABLE STRENGTH SHOWN IN SEVERAL IMPORTANT ISSUES.

Bank Statement Favorable, but Early Exports of Gold Are Indicated-The Week-End Conditions.

NEW YORK, April 26 .- To-day's stock market was rather quiet and gave very ittle evidence of the activity of the large speculative forces which have kept up the animation of the market during the week. The Pennsylvania and the New York Cen- Wis. Central pref 500 tral were the only conspicuous stocks to show sustained strength, with some sympathetic influence on the stocks of subsidiary or allied companies. The twelve points rise in New York, New Haven & Hartford was supposed to have some connection with the strength of the two principal line stocks. Am. C. & F. pref...... There were sharp advances in a number Am. Linseed Oil of industrials and specialties which had Am. no apparent connection and were not explained by any new development. The bank statement proved closely in accord with yesterday's preliminary estimate and was accepted as favorable. But the attempt to make realizing sales in the expectation that demand for stocks would be attracted by the statement found a yielding market and prices were carried downward in many important stocks to below last night's level. Yesterday's support for the United States Steel stocks was lacking and these stocks were heavy throughout. The grangers seemed somewhat affected by the firmer tone of the grain markets. There was no sequel to yesterday's late spurt in Southern Railway, and that stock sagged until the close. The closing generally was active and easy. The session of the committee having in hand the attempted settlement of the anthracite miners' demands was a repressive influence on speculation, but the tone of the market seemed chiefly due to the disposition of the operators to take a whole holiday instead of half a day, after the considerable activity and excitement of the week.

With the period of growth of the winter wheat crop and the approach of the seeding period for corn and spring wheat, the stock market this week has reflected the mportance attached to the crop prospect | United States threes, reg. as outlining the hope of continued prosperity for the whole country. The remarkable hot weather early in the week and the absence of moisture turned the prices of stocks downwards, and there was no appreciable rallying until the reaction in United States fives, coup. wheat and reports of rain in the Southwes gave hope of relief from the threatening conditions. The leading speculative inter est in the stock market is very active als the grain markets, and much manipula tion was evident in both, and current ru mors were much given to exaggeration Reports that the coming corn crop was seriously threatened are scarcely warrante when the seed is not even in the ground New York Stock Exchange Chicago Stock Exchange Chicago Board of Trade New York Coffee Exchange During the current year the corn shor age has not materially affected the men chandise movement to the corn region, a the people there were in prosperous cond tion for several good previous years. Th shortage in corn also led to large marke ing of live stock. But another poor corn crop could materially affect the earning power of the railroads. The winter wheat crop undoubtedly has sur'ered considerable deterioration during the past week. Notwithstanding the strong influence of the grain situation, it is obvious that strong and aggressive speculative forces are still active in the stock market, and they have been alert in shifting from one point to another and developing strong spots. Confidence in the general railroad situation is fostered by the generally high level of earnings reported and by such special exhibits as the annual report of Lake Shore, with its great surplus earnings over extraordinary expenditures out of earnings for betterments. The details of the great international steamship merger are in evidence, owing to the rapid progress towards the strengthening and consolidation of the transportation facilities, both domestic and international, of the country. The working out of the community of interests in the anthracite carriers is also in evidence and the week's buying of the Readings has admittedly been in the interest of the great trunk line systems in fourtherance of the policy of division of control of that traffic among them. Lake Shore's report of the acquisition of a large block of Lehigh Valley is evidence of the same tendency. On the other hand, there was a reminder of the legal obstacles which may be interposed for merger projects in the decision of the Supreme Court to allow the State of Washington to file suit against the parties to the Northern Securities Company. The force is seen of the comment by one of the principals that the consolidation of ownership in the Northwest is assured, whatever may be the decision of the Supreme Court on the present plan of holding the proper-Atlas Engine Works preferred stock . 6 per cent ties. But the fact remains that important financial results depend on the success of the present plan of holding these companies, and the question of its validity must remain a weight on the securities market until it is settled. The activity and strength of the stocks of minor railroads in a strong strategic position and available for advantageous absorption by the larger systems,

tention, as the easy terms offered no check to the speculation. There was undoubtedly Manufacturers of all kinds of large Scales.
ANTI-FRICTION BEARINGS, preventing wear upon the pivots. A great improvement over any others. The MOST DURABLE heavy liquidation during the early part of the week in the stock market, but the financial projects in view offer no ground for supposition of any important reduction in e volume of credits. In fact, there has been a large expansion of foreign obligaling loans. In spite of this, the course of exchange has been upwards and gold ex- \$17,499 gold and \$13,333 silver. ports are considered probable again. The present extraordinary accumulation of banking reserves in France is a subject of Trades executed. Any quantity. Also receive and deliver any commodity with immediate settlewonder in the financial world. The conjecture that a large loan to Russia was in contemplation has been overthrown by the authoritative statement that the Russian loan floated in Germany was with the stipulation that no further Russian loan would be offered within a year. The French accumulation is now supposed to be simply due to a prevalent spirit of distrust by investors due to heavy losses in Russian and other industrials. It is expected that a satisfactory outcome of to-morrow's elections in France may lead to some outflow of French capital into the channels of investment. Some tentative steps were taken towards securing the admission of American securities to the Paris Bourse or towards the removal of obstacles to the admission of foreign securities there, to which importance is attached. Meantime American capitalists are availing themselves of the abundant resources of the French money market in the carrying out of syndicate projects and the London market is indebted to Paris on a scale probably unprecedented. Speculative and convertible bonds have been very active, moving in sympathy with stocks. United States twos advanced 1/6 per wild and trackless forests around Buffalo

as well as transfer of the control of Louis-ville & Nashville, are evidences of the

steady tendency towards consolidation in

Imports of specie for the week were Treasury Statement. WASHINGTON .- Saturday's statement of the treasury balances in the general fund, the division of redemption, shows:

Available cash balance.....\$181,859,581 Gold 91,648,759 WEEKLY BANK STATEMENT. Growth of the Surplus Reserve Continues to Be a Favorable Factor.

the associated banks for the week ended to-day shows the following changes: Loans, decrease\$1,097,300 Circulation, decrease Legal tenders, increase..... 2,563,900 Specie, increase 761,600 Reserves, increase 3,325,500 Reserve required, increase...... 443,100 Surplus, increase 2,882,400 The banks now hold \$9,461,050 in excess of

reserve requirements under the 25 per cent.

NEW YORK, April 26.-The statement of

The Financier says: "The official statement of the New York associated banks | Porkfor last week showed an increase of \$3,-325,500 in cash, of which \$761,600 consisted of specie and \$2,563,900 legal tenders. This increase of cash is only \$811,200 below that which was estimated from the traceable movements of money during the week, the estimated sum being \$4,136,700. In the previous week there was a difference between the estimated and the official gain of \$1,173,900, the latter being \$860,110, while the former was \$2,034,000. This wide difference, it was then believed, indicated that the statement was made on the rising

averages, which belief, it now appears, was most likely correct. Therefore, it would seem that the bank returns of last week reflected actual conditions as regards cash more closely than has usually been the case. Loans were decreased \$1,097,300, making \$13,829,300 since April 12, inclusive, during which period stock transactions were in large volume. The requirements of stock commission houses have been largely met with offerings from country banks, chiefly at the West, who have freely loaned the balances with their New York correspondents, so that the Stock Exchange borrowers have been able to obtain all the money they need elsewhere than in local bank and trust companies. The deposits were increased last week \$1,772,400. The statement is, therefore, out of harmony, the gain in cash less the loss in loans calling for an quired reserve was augmented by \$443,100,

which amount deducted from the gain in

190% stands at \$9,461,050, against \$16,759,775 at the corresponding date last year. The cash changes by individual banks were comparatively small during the week.'

PRIVATE WIRE ADVICES.

86% Rather a Bullish Feeling Early, but Some Late Liquidation.

[Meyer & Kiser's Telegram.]

half of the session the market was comnone of the manipulation which has been so in evidence for some time. Rather a bullish feeling was created, owing to the in fairly large volume by commission houses. A block of 10,000 shares of Penn-214 sylvania was taken by a broker supposed to represent Vanderbilt interests. Monon was active and strong, being favorably affected by the story that the property was to be acquired in the interests of the L. & N. The exhibit made by the bank statement was decidedly favorable, the surplus reserve showing an increase of over \$2,800,about a million dollars more than the estimate made by the Financial Chronicle. As is often the case when the bank statement makes a favorable exhibit, considerable liquidation ensued, more especially in Union Pacific and in the Readings. The selling of Union Pacific was ascribed partly to the upward movement which took place in the wheat market. The market closed rather below the best figures of the day, but sentiment in the street still continues to favor higher prices. The damage to wires was considerable and commissionhouse business was light on this account. Strong Market Is Looked For.

[Granger Farwell & Co.'s Telegram.] NEW YORK, April 26 .- The market is being adroitly led and the short day, with its good bank statement, was favorable for a strong market on Monday. The demand is turning again to the best stocks, like New York Central and Pennsylvania. With all fear of a mine strike removed, there should be good business next week.

NEWS FAVORS THE BULLS

GRAIN PRICES MOVE STEADILY TO A HIGHER PLANE.

Trading Is Shifted to July Options, Which Show Good Gains-Provtsions Also Are Higher.

CHICAGO, April 26.-Wheat experienced a normal reaction from yesterday's bad slump and with numerous bullish factors behind it lent of its strength to other grains. Trade was not heavy, but July wheat closed %c higher, corn, 4c higher, oats, 146%c higher. Provisions gained

121/2c to 171/2c. Deficiency of moisture in Kansas and almost freezing temperature in many parts of the wheat belt were enough to start wheat upwards at a good pace at the | Corn meal firm. Yellow Western, \$1.30; city, opening of trade. To augment the strength cables were firmer than had been expected and receipts, both primary and Northwestage in receipts has been apparent for some time and comparisons have been made 85%c f. o. b. afloat; No. 1 northern Duluth, against a short crop year, the bears became discouraged again and shorts covered freely. Excepting rains, every argument was in favor of the bulls. Traders were of opinion that it takes something more than a rain or two to make a harvest. After the initial upward impulse trade was quiet for a time, prices fluctuating weakly. Con-cerning Kansas Bradstreet had a special report, saying a three-fourths yield at the best, and 60 per cent. probable, was to be expected. Weather forecasts had a bad effect. Frosts were predicted in many of the Western States, and in just the places where warmth is most necessary. Then came the report of seaboard clearances of | tember, 67%067%c, closed at 67%c. 816,000 bu-exceptionally large-and of a fair outlook for export business with France. Prices worked up, trade became more active and the greater part of yesterday's loss was regained. July opened 1/2c to 1/4c higher at 75%@75%c to 751/2@75%c, advanced to 76%c and closed firm, %c up, at 76%@76%c. Local receipts were 33 cars, none of contract grade; Minneapolls and Duluth reported 153, a total of 186, against 143 last week and 349 a year ago. Australian shipments were only 152,000 bu, against 576,000 last year. Primary receipts were 215.000 bu, compared with 445,000 last year. Brokers in corn reported the lightest trade in that pit for Saturday in many weeks. One explanation was the bad wire service, on account of the storm, which almost shut off outside trade. Another cause | pickled hams, \$11.50@12. was the hard jolt speculators received yesterday and which they had hardly got over to-day. What argument there was favored the bulls. Wheat strength and firm cables aided in an early upturn, but prices haggled very narrowly most of the country (packages free), 6% 66%c. Cotton-session. Speculative offerings were light seed oil firm. Prime crude, nominal; prime and there was little selling pressure. The cash demand was good and the Southwest was very bullish. St. Louis reported good cash sales and more desired than could be obtained. In general corn was without feature save its strength. July sold be- | Mild quiet. Cordova, 84@12c. tween 64@64%c and 63%c, and closed firm.

14c up, at 63%c. Receipts were 94 cars. demand and prices advanced. July (new standard) sold between 37%c and 37%c and 374c, closed firm, 4@%c up at 37%@374c.

Receipts were 136 cars. Trade in provisions was largely local, because of poor wire service. At the start exclusive of the \$150,000,000 gold reserve in the grain improvement and a steady hog market induced buying, which (even as hog prices weakened) continued to improve. There was a momentary disposition to sell on the hog situation, but a very good packers' support developed a strong market. Pork was in best demand, but lard also was wanted. Trade in general was dull. July pork closed 174c higher at \$17.95; lard, 121/2c up at \$10.071/2, and ribs, 121/2c higher at \$9.471/4.

Estimated receipts for Mondoy: Wheat, 25 cars; corn, 125 cars; oats, 205 cars; hogs, 35,000 head. Leading futures ranged as follows:
